FOSS

Free & Open Source Software

(not necessarily “free” though :p)

Open Source Maps.

What. Why. How.

What?

(. _ .)

Wikipedia of Maps!

Enter... OpenStreetMap!

Why?

(-__-)

They track you.

they live in your walls...

OSM ain't that guy :D

Its API is paid.

Kinda sad for devs.

Offline usage!

I'm not gonna get lost anymore :D

How?

(+__+)

Contributions!

The screenshot displays the OpenStreetMap web application. At the top, the 'OpenStreetMap' logo is on the left, and a user profile 'Selvaganesh Arunmozhi' is on the right. A red circle highlights the 'Edit' button in the top navigation bar. Below the navigation bar, the 'Edit feature' panel is open on the left side. It shows the 'Feature Type' as 'Administrative Boundary' and a list of 'Fields' for editing the city of Bengaluru. The main map area shows Bengaluru with a blue outline indicating the city boundary. A 'Zoom in to edit' button is visible on the map. The bottom of the screen shows a scale bar (5 mi) and a list of recent edits by other users.

Help improve [OpenStreetMap](#) with StreetComplete!

This app finds missing map data in your vicinity and displays it on a map as quests. Solve each quest by visiting the location on-site and answering a simple question to update the map.

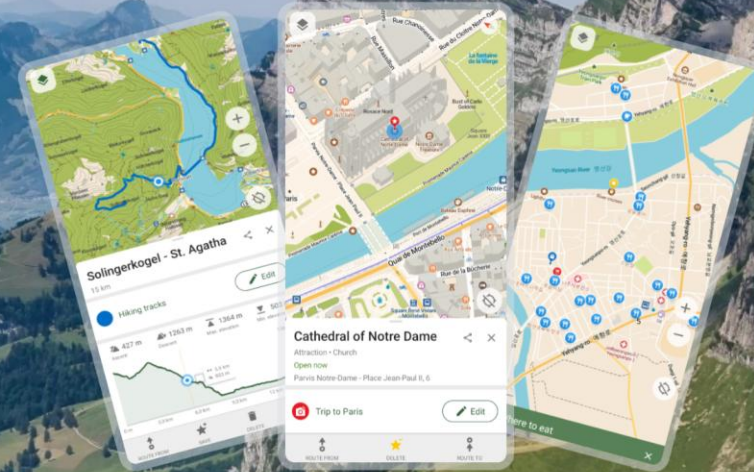

The info you enter is directly added to [OpenStreetMap](#) in your name, without the need to use another editor.

The map shows the JP Nagar Metro Station area in Bangalore. The newly added cafe is marked with a blue icon and labeled 'Metro Cafe' near the station. The map includes labels for 'Kanakapura Road', '14th E Cross Road', 'Outer Ring Road', 'Saraki Junction', 'Yelachenahalli', and 'GR Pinnacle'. A scale bar indicates 20m and 50ft. The bottom of the map features the OpenStreetMap logo and a link to 'Make a Donation, Website and API terms'.

That smol food shack near the parking lot
